

## EDUCATION

---

### OCADU

2011 - 2015

Graduated with a Bachelor of Design from OCADU, majoring in graphic design, with an emphasis on typography, history, & business courses.

## EXPERIENCE

---

### TNT Designs

2018 - Present

As a Graphic Designer & Marketing Coordinator at The Next Trend Designs, I work closely with the sales team to make the client's vision a reality. I mock-up a wide variety of promotional products. I create high quality, press-ready logos, brand elements, and artwork. I also create web elements, email eblasts, website user guides, brochures, catalogues, and advertisements.

### Hatch Canada

2017 - 2018

As a Coach at Hatch Canada, I teach students ages 7-17 how to code using JavaScript. Learning at their own pace, the students work their way through Hatch's 600 different projects while learning how to solve logic and design puzzles.

### Toronto Star

2015 - 2016

As a member of the award-winning graphic design team dedicated to launching The Star's tablet-based news app, Star Touch, I used a combination of Adobe Illustrator and Adobe Photoshop to create content, which I would then refine in Star Touch's online publication software, Lucid. I created collages, designed backgrounds, info-graphics, pop-ups, and a wide variety of interactive content.

### Freelance Graphic Design

2012 - Present

I have collaborated and worked alone to create dozens of commissioned and private large-scale murals, paintings, CD covers, and event posters. I have also curated several art exhibitions and events over the years, held at galleries such as The Flying Pony and The Kingston Social.

## SKILLS

---

- 10 years of experience using Adobe Photoshop, Illustrator, and InDesign
- Comprehensive understanding of typography, illustration, and web design
- Working knowledge of Javascript, Squarespace
